Doctor battles AIDs with 'team effort'

Aggressive treatment is critical

By SAUL PERLES

When Daniel Berger finished his medical school training, he was told to expect a life of relative ease. But the doctor who has spent the last 15 years of his life in the fight against AIDS has a different perspective. "I don't see this as a career," he says. "I see it as a mission."

Dr. Daniel Berger believes one of the keys to prevention of HIV infection is aggressive treatment of those with the virus. He says that the use of AZT and other drugs can help to keep the virus under control and prevent it from spreading to others.

Local Gay Experimental Drugs for People with AIDS

Experimental drugs are being tested on a small group of people with AIDS. The drugs are being tested to see if they can help to control the virus and prevent it from spreading to others. The drugs are being tested in a clinical trial at the University of Chicago.

Contemporary Issues in the Treatment of HIV Infection

By Daniel F. Berger, MD

The treatment of HIV infection has evolved rapidly in the past few years. The use of AZT and other drugs has helped to control the virus and prevent it from spreading to others. However, there are still many challenges in the treatment of HIV infection.

Daley Against AIDS Increase

By SAUL PERLES

Mayor Daley has announced a plan to increase funding for AIDS research and treatment. He says that the city will be providing more support for the fight against AIDS.

The mayor's plan includes increasing the number of people who are eligible for AIDS-related services. He also plans to increase the number of people who are eligible for financial assistance.

ACT UP's Battle Against AIDS

ACT UP is a group of people who are fighting against AIDS. They are using a variety of tactics to draw attention to the disease and to demand better treatment and prevention methods.

ACT UP has been successful in getting the media to pay attention to the disease. They have also been successful in getting the government to increase funding for AIDS research and treatment.

30 Improper Strip Searches Follow AIDS Rally

By SAUL PERLES

Thirty improper strip searches were conducted at an AIDS rally. The searches were conducted by police officers who were not properly trained to conduct such searches.

The searches were conducted at the AIDS Memorial Vigil. The vigil was held in the city park. The searches were conducted by police officers who were not properly trained to conduct such searches.

White others despair, he dances
